Summary

Self-taught web developer with a strong passion for building and designing responsive and user-friendly websites. I have a solid understanding of modern web development technologies and frameworks, including HTML, CSS, JavaScript, and React. I am a quick learner and have a strong attention to detail.

Experience

Quality Control Intern @ Methodist Le Bonheur Healthcare

August 2020 - December 2020 // Memphis, TN

- Identified and presented potential risks and inconsistencies in the database through clear and concise visual aids during meetings.
- Improved daily efficiency by streamlining the process of populating tables in Microsoft Excel.
- Analyzed data and results from previous quarters and other institutions to identify trends or areas for improvement.

Projects

Versus Zero

December 2022

Developed a web application using Next, Prisma, and PostgreSQL that allows users to create poll-like questions, vote, and leave comments.

PokéBinder

August 2022 - November 2022

Designed and implemented an advanced Pokémon card search engine that allows users to easily locate cards and view their prices and details.
